The flats were purpose built to meet various physical and complex needs, including wet room bathrooms and accessible kitchens, with height-adjustable worktops to enable the people we support to learn and fully maintain independent skills.

The flats are fully furnished however, we encourage the people we care for to bring personal items to help it truly feel like home. On the ground floor we have a communal lounge where we carry out group activities, host birthday parties and other social activities. We have a large garden area to the rear of the property, complete with walking trail and benches.

We encourage people to mix with their peers if they wish, and we ensure that events such as coffee mornings, arts and crafts sessions and movie nights are offered in our communal lounge and dining area.

At Woodland Court we have aligned and agreed our strategic goals to define what we want our organisation to achieve. This means we have also aligned them with the five domains of the Care Quality Commission (CQC) inspection standards to ensure we provide the very best care possible to all our residents.
